Subject: Quality Program Audit Result

Ref.: CSA Z299.3

Audit Date: 2007-02-26/27

Dear Mr. Harrington

Thank you for the courtesy extended to me during the audit performed on 2007-02-26/27

Evaluation of your quality program implementation at your Port Talbot facility indicates that it is acceptable to GE Canada except for the findings listed in the attached report. Findings were discussed with you during the exit meeting. Due to the findings, 100% dimensional inspection will be performed on the product subcontracted to you by GE. Traceability of free issue material has been verified via the audit.

Based on the above, Vector International will be added to the list of qualified vendors for GE Nuclear Products subject to the restrictions on the dimensional inspection as noted above. Please provide confirmation of actions taken to address the findings and the associated objective evidence within four weeks of this letter.

My sincere appreciation to you and your team for the support you provided during the audit. If you have any questions regarding this report, please contact me.

Yours Sincerely

Altaf Qadir
